

FAS Asset Accounting

Designed for those that want to manage their fixed assets, and not have their fixed assets manage them, FAS Asset Accounting offers a comprehensive solution to meet the unique requirements of any business.

Providing you with the flexibility you need to satisfy your specific requirements, FAS Asset Accounting is a comprehensive solution that provides advanced fixed asset accounting and reporting features for businesses needing effective decision-making tools in integrated accounting environments. It offers more than 50 depreciation methods including MACRS 150% and 200% (formulas and tables), ACRS, Straight-Line, Modified Straight Line (formulas and tables), Declining Balance, Sum-of-the-Years-Digits, and user-defined depreciation methods.

The FAS Asset Accounting family provides easy-to-use fixed asset accounting, depreciation and reporting features for companies needing effective decision-making tools to ensure compliance with Sarbanes-Oxley requirements. FAS Asset Accounting enables you to manage the entire fixed asset lifecycles of all of your assets from acquisition to transfers and disposals, and maintain reliable, relevant, useful data.

Offering more than 20 ready-to-use fixed asset reports, federal tax compliant reports for year end financial statements, and easy to use reporting tools for creating custom reports, FAS Asset Accounting enables you to obtain the information you need quickly and accurately.

As the industry leader in asset accounting software, Sage Software develops innovative products, provides certified support, and is dedicated to surpassing your expectations in all aspects of our business. For more information about FAS Asset Accounting, please call us toll-free at 1-800-368-2405 or visit us online at www.sagefas.com and we will facilitate your fixed asset management.

"Our entire fixed asset process is automated now, which means that we can grow by another 50 percent without hiring staff in the fixed asset department. Not only are we running the company smarter, but we're doing accounting tasks that would've been utterly impossible before."

Denise Mattson, Tax Manager
Round Table Pizza, Inc.

SIMPLE MIGRATION

With the import/export wizard, you can easily import your existing data into the FAS Asset Accounting database, integrate with your General Ledger solution and be up and running in no time at all.

COMPREHENSIVE REPORTING

FAS Asset Accounting provides an all-inclusive solution for recording all of the data for each asset, including a notes field with a time and date stamp for recording transactions involving the asset, and the ability to attach photos and documents. By attaching the unique identification information of each asset, you can rest assured that you will eliminate duplication in asset reporting and facilitate clean audits.

FLEXIBLE CONFIGURATIONS

With the wealth of features offered including customizable data fields, SmartLists that provide predefined drop-down lists for fast and accurate data entry, a "Group Manager" that helps you organize and view only the assets you're interested in, and "Asset Templates" that promote data integrity and accelerate the process of entering new assets, you can customize your Sage FAS solution to work the way you want to.

SECURE ACCESS

Security profiles can be defined differently for each individual user that has access to the system ensuring that only those that are allowed to change the data are able to.

QUALITY SUPPORT

Sage FAS SupportPlus members benefit from an unmatched level of customer support—both online or call and our friendly, knowledgeable experts are ready to help. Sage FAS SupportPlus members can also download software upgrades, access multimedia tutorials and take advantage of exclusive discounts on new products.
