

Your business in mind.™

MIP Fund Accounting

Specifically designed for nonprofit organizations, MIP Fund Accounting Intro empowers you to:

- Cut hours or days off your reporting cycle — create the reports you need within the system instead of manipulating data with external spreadsheets.
- Set up your chart of accounts to access data for easy tracking and reporting.
- Boost productivity and reduce errors — automate transaction entry with tools and shortcuts.
- Make it easy for a CPA to verify financial statement accuracy — the Intro system maintains a clear audit trail.

MIP FUND ACCOUNTING INTRO

Helping Nonprofits Meet Their Specialized Accounting Challenges

Unlike commercial accounting systems, MIP Fund Accounting Intro addresses the specific needs of small nonprofit organizations, from demonstrating financial responsibility to the board to maintaining compliance with government and grantor requirements, such as FASB.

The ideal solution for nonprofits with \$1M or less in annual budget, three or fewer system users and a need to track and report on multiple funds across multiple budget periods, Intro gives you the insight into your numbers for more informed decisions.

One-Click Navigation

An intuitive navigator interface makes Intro easy to learn and use. Application tasks and reports are grouped by accounting function, including easy-to-understand workflow diagrams and checklists. Customize the system to fit your work habits and your mission — not the other way around.

When you open the Intro system, you're greeted with the information that is most important to you. You can tailor entry fields, highlight required fields, save favorite reports for easy access, create shortcuts to other applications and perform tasks more efficiently than ever before.

Built-in Grant Administration

The Grant Administration functionality works with all system components for the best built-in grant management available in an accounting system. Consolidate all grant-related information and documentation, create profiles, track status and processes and streamline administration processes. Easily measure and report on grant or program effectiveness by creating budgeting and reporting performance data directly in your accounting system.

SYSTEM REQUIREMENTS

Server Recommendations

Single Pentium-Class Processor 500 MHz (or higher)
512 MB of system memory (RAM)
Microsoft Windows 2000 SP 3 or Windows XP Professional Edition SP 1 or newer

Workstation Recommendations

Single Pentium-Class Processor 500 MHz (or higher)
256 MB of system memory (RAM)
Microsoft Windows 2000 SP 3 or Windows XP Professional Edition SP 1 or newer

MIP FUND ACCOUNTING INTRO

"Thank goodness for the simplicity and straightforwardness of MIP software. It's a real lifesaver!"

*Linda Wilbourne,
Cancer Care Services*

Built-in Reporting for Easy Compliance

Nonprofits can't afford to jeopardize crucial funding by failing to provide reports for government and grant compliance. Intro goes beyond out-of-the-box solutions by providing a flexible, built-in report writer that helps you to easily create reports that meet the varying requirements of funding and regulatory sources as well as your internal management.

MIP Fund Accounting Intro lets you:

- Produce a wide selection of standard reports such as FASB-compliant, audit-ready financial statements.
- Report on multiple fiscal years in the same report or create custom reports that cross fiscal years.
- Format custom reports to your exact specifications.
- Write dynamic financial statements directly in the application, without the help of a programmer or IT consultant.
- Create your own report templates. Set up an unlimited number of financial statements, preview them onscreen and save them for future use.
- Manage and access reports quickly and easily.
- Create lists of your favorite reports and keep them at your fingertips.

Timesaving Entry Features

Timesaving entry features promote quick and accurate transaction entry in easy-to-use spreadsheet-style entry forms.

- Utilize entry default values and shortcut keys.
- Automatic account balancing offsets including interfund entries.
- Distribution features automatically allocate entries using percentages, units or fixed dollar amounts.
- And many more productivity-enhancing tools.

Affordable Fund Accounting for Small Nonprofits

Intro's modular design makes it scalable and affordable. Purchase only the modules that provide the additional functionality you need, adding to the system as your organization grows or your program demands change. And as your system transaction volume increases or you add users to the system, Best Software makes it easy to upgrade to higher-performing MIP Fund Accounting Pro or Advantage. The look and feel of MIP Fund Accounting solutions is so similar, you'll be up and running in no time.

Available Modules for MIP Fund Accounting Intro

Accounts Payable: Track and report on vendor payables, check balances and issue payments, all within the Intro system.

Accounts Receivable Reporting: Maintain, track and report on detailed customer and donor records.

Payroll: Track employee service efforts, produce timely and accurate payroll, generate distributed accounting entries and keep comprehensive employee records.

Budget: A powerful planning, compliance monitoring and reporting tool. Expedites recording and tracking available budget for programs and departments.

Bank Reconciliation: Reconcile multiple cash accounts and improve cash management by monitoring balances and transactions within the system.

Forms Designer: Customize virtually any printed form, including customer billing statements and check stock, or insert auto-signatures for check authorization.

Data Import/Export: Easily transfer information to and from the MIP Fund Accounting system.

Grant Administration: Consolidate all grant-related information and documentation and simplify grant management processes directly in your accounting system.

Executive View: A low cost licensing option to extend read-only and limited system use of your system to foster team collaboration and analysis.
